AIM AND SCOPE

The *Spanish Journal of Agricultural Research* (SJAR) accepts research articles, reviews and short communications of content related to agriculture. Research articles and short communications must report original work not previously published in any language, nor under consideration for publication elsewhere.

SJAR is an international peer-reviewed journal. The main aim of SJAR is to publish papers that report research findings on the following topics: agricultural economics; agricultural engineering; agricultural environment and ecology; animal breeding, genetics and reproduction; animal health and welfare; animal production; plant breeding, genetics and genetic resources; plant physiology; plant production (field and horticultural crops); plant protection; soil science; and water management.

SJAR is indexed in **Science Citation Index** and **Scopus**. Additionally in **Agricola**, **Agris**, **Biosis**, **Cabell's**, **CABI full text repository** (CAB Abstracts and Global Health), **Cross-Ref**, **DOAJ** (Directory of Open Access Journals), **e-Revistas** (CSIC Directory of Spanish and Latin American Open Access Scientific Electronic Journals), **FSTA** (Food Science and Technology Abstracts), **Georef**, **Google Scholar**, **ICyT**, **Revivec**. It is also included in the following automated directories: **Dialnet**, **Latindex Catalogue**, **Universitätsbibliothek Regensburg**, **Ulrich's Periodicals Directory**.
